

YSGOL RHOSNESNI
HIGH SCHOOL

GARDENING CLUB – CLWB GARDDIO.

After half-term it is hoped that the school Gardening Club can begin once more. The land next to the Science block is about to be landscaped and will be our new sensory garden – with new paths, patios and a range of flowers plants and trees. All will need to be maintained and cared for – so our Gardening Club will be responsible for all the up keep.

Our fruit and vegetable garden, situated alongside the swimming pool is also due for a facelift, which we hope will include numerous raised beds for vegetables and a new poly tunnel for fresh fruit.

We will do all the sowing and planting and be responsible for maintaining all the beds so that we can look forward to the produce we will be able to harvest.

The Club needs new members who are keen to support all the gardening and eco-projects we will be involved in over the coming months and years.

If you are interested or want to know more please see Mr Whitehead in Nurture or speak to Morgan (Team Leader).

We have an exciting opportunity to improve our environment, give the school a face-lift and have a lot of fun along the way. Come along and join the team!

Mr Whitehead – Nurture.
