

November 2023

Dear Parents/Guardians,

Design and Technology Contribution

As part of the Design and Technology Curriculum in Year's 7-9, your child will participate in a range of designing and making activities. All materials and equipment are provided to ensure all pupils have the opportunity to participate fully and develop their skills and knowledge. As part of this work your child will produce practical outcomes:

Year 7	Monster Cushion Cover	Handy Grab	
Year 8	LED Wristband	Metal Candle Holder	Wall Art
Year 9	Metal Jewellery	Desk Lamp	

To enable them to take this practical element of their work home, we are requesting a payment of £1.00 to contribute to the cost of materials to produce each product.

Design and Technology is taught on a rotation in Year's 7-9. Students only need to pay for their current Project. For example, a Year 7 student might pay £1 to take home their Handy Grab in the Autumn term and a £1.00 to take home their Monster Cushion in the Summer term.

Please make your payment via Parent Pay.

Please do not hesitate to contact me for additional information or with any questions you may have.

Yours sincerely,

S Evans
