

Year 8 Maths Mid Year Test Revision Preparation

Mon 2nd Feb & Tues 3rd Feb 2026

There will be 2 tests, one procedural based (assessing the topics below) and the other will involve more application of knowledge and problem solving.

Please use the list of topics below to revise using the videos and questions on Mathswatch. Your teacher will show you how to do this. Good Luck! Also, you could make a poster of the key points to help you remember them.

- Adding and subtracting whole numbers and decimals
- Multiplication and division by whole numbers and decimals including long multiplication and division
- Converting and ordering between fractions, decimals and percentages.
- Reading and writing whole numbers
- Interpreting scales
- BIDMAS
- Indices and square roots
- Finding a fraction of an amount
- Percentages of an amount
- Simplifying ratio
- Simple proportion
- Reading scales
- Money problems
- Rounding to whole numbers and decimal places
- Multiples
